

UPDATE – STUDY COMMITTEE SC-C3
SYSTEM ENVIRONMENTAL PERFORMANCE
Prepared by Glen Singleton, B.C. Hydro
09/09/14

Highlights

- Good progress has been made on three workgroups that were launched originally at the Paris 2006 plenary SC C3 meeting. In particular:
 - WG C3.04 (“Stakeholders engagement and communication in Sustainable development”) completed its international questionnaire to utilities and the analysis of the results
 - WG C3.05 (Environmental Impacts of Dispersed Generation) prepared a first draft of the report.
 - WG C3.06 (Strategic Environmental Assessment”) prepared a report about SEA methodologies and experiences, with contribution from Brazil, US, France, Netherlands, Portugal, Spain, German, China, Canada, South Africa, United Kingdom and Belgium.

- The two new WG’s launched in 2008, after the South Africa plenary SC C3 meeting, both with a satisfactorily membership, started their work, but up to now only by correspondence.

Publications

- Publications since the last CIGRE Technical Committee meeting (April 2008)
 - The WG C3.01 published, on the December 2008 issue of Electra, a Report reviewing the last WHO document about EMF and human health.
 - Technical Brochure prepared by WG C3.02 will be published in the June 2009 issue of Electra

- Publication plan for the coming year
 - By Mid-August the SC C3 Activity Report for ELECTRA shall be prepared, which introduces the activities of the SC, its present actions and the ideas for the near future.

- By the end of 2009 two WGs are expected to publish their Final Report, i.e. WG C3.05 and WG C3.06.

Planned SC meetings

- 2009: Oporto (Portugal), September 21-25
- 2010: Paris, August 21st – 27th
- 2011: Israel (date to be defined)
